• Long-bodied, deep, and docile is how we describe this guy. Jesse James has been making top-end bulls and females across the country, and this guy is no different. His dam, SAV Blackcap May 1051, has a great record herself: WWR 6@103 and YWR 4@103. This bull is also the maternal sib to Square B Bozeman, who was a breed-leading performance and calving-ease sire. - Let's talk donor potential and cow power ... here is a great option for any program! Not very often you will find a pedigree with as much maternal goodness and a stacked set of EPDs and performance but, with this heifer, you can have it all! She is safe AI- bred to LT Chiefton (AAA 20199204). Due 9/23/24.
- Logan is not happy we put this heifer in the sale, and REALLY wanted to keep her, but we want to share with you our BEST! Her flush sibling sells as Lot 15. This heifer brings a WW EPD +83 and YW EPD +142, both in the top 10% of the breed. Don't miss this female, as she will surely be a program improver!

• True Hawk Angus pedigrees on this mating. Reward has proven himself the old-fashioned way by siring natural calves that grow and perform. They have always been standouts, even when compared to the AI and ET genetics we have made. Hawk Elaine 5339 has proven herself so well, we will have over 40 pregnancies coming from her in 2024. The natural calf that 5339 raised this year (pictured) was a Reward daughter, and weaned off at 840lbs. This mating is exactly what we are striving to build, and here is your chance for a piece of the same. Heifer pregnancy due 10/17/24.
